

22 May 1972

DDP

GACarver, Jr.

Attached is a copy of the memorandum I gave the Director this morning (22 May) in your presence. At the Director's suggestion, I raised this in a low key at today's WSAG during a discussion Haig initiated on the whole question of psychological warfare and the President's continuing extreme displeasure with the ineffectiveness of past U.S. efforts in this field. Haig's feeling was very strongly that we should proceed as ordered [redacted] project. This matter is to be raised at a session with Sullivan and senior (three-star) DOD representatives at the Department this afternoon. After the WSAG was over, I talked privately with Kennedy and gave him a copy of our suggested White House/State draft cable to Bunker. Kennedy said he would re-work this and table it as his suggestion at this afternoon's meeting.
